

ADL598 Learning Design Project

Level: 5

Credit Units: 5 Credit Units

Language: ENGLISH

Presentation Pattern: EVERY JULY

Synopsis:

ADL598 Learning Design Project allows students to apply prior learning through the development of course materials. This course emphasizes the applied nature of learning design and provides students to gain experience in learning design.

Topics:

- Analysing learning needs and profile
- Determining the design approach for course development
- Defining the course structure and outcomes
- Defining the unit structures and outcomes
- Sequencing and organising course topics and content
- Determining the instructional strategies for each unit
- Developing formative and summative assessment strategies
- Writing up of assessment items
- Utilising digital platform and resources for teaching
- Integrating digital media and content for lessons
- Preparing instructional guidelines for the course
- Copyright considerations

Learning Outcome:

- Analyse learning needs and profile of learners.
- Formulate and define course learning outcomes and goals.
- Prepare a reasonable set of topics based on learning needs within proposed structure.
- Create course content for the area of study based on defined goals.
- Organise course content and determine the order in which they would appear meaningfully within the course structure.
- Design effective and appropriate instructional and assessment strategies for each lesson.

Assessment Strategies (Evening Class):

Components	Description	Weightage Allocation (%)
Overall Continuous Assessment	PROJECT PROPOSAL 1	30
Overall Examinable Components	FINAL REPORT	70
Total		100
