

## BAE221 Creative Ceramics

**Level:** 2

**Credit Units:** 5 Credit Units

**Language:** ENGLISH

**Presentation Pattern:** EVERY JAN

### Synopsis:

This module is for those with Art background. It introduces clay as a material for fostering art students' self-expression and meaning making through three-dimensional forms. A range forming techniques will be introduced which will include hand building techniques like pinching, slab work and coiling as well as decorative techniques like glazing. Through practical projects, students will also learn to manage a ceramics art class from start to finish and be exposed to the practises of firing and clay recycling. Object-based thinking will be modelled in this module.

### Topics:

- Studio Ceramics
- Material and Process - Firing Test
- Review of Firing Process
- Craft Movement
- Work in Progress for OES - Materialisation of Ceramic Object
- Completion of OES - Materialisation of Ceramic Object

### Learning Outcome:

- Discuss form, texture and function within ceramic literature.
- Examine the processes required in the traditional and contemporary manufacture of stoneware.
- Apply foundational principles and approaches in the manufacture of ceramic works (e.g. hand building techniques, glazing, wheel work etc.).
- Prepare the different steps for creating ceramics
- Experiment with techniques to create the ceramic that expresses ideas and intent.
- Create a ceramic piece utilizing a variety of techniques and approaches

### Assessment Strategies - Regular Semester (Evening Class):

Components	Description	Weightage Allocation (%)
Overall Continuous Assessment	TUTOR-MARKED ASSIGNMENT 1	20
	TUTOR-MARKED ASSIGNMENT 2	30
Overall Examinable Components	ECA	50
<b>Total</b>		<b>100</b>
