

FIN303 Financial Management

Level: 3

Credit Units: 5 Credit Units

Language: ENGLISH

Presentation Pattern: EVERY SEMESTER

Synopsis:

FIN303 Financial Management introduces key concepts in finance such as time value of money and risk, and applies these concepts to value financial assets in order to make sound business decisions such as how a firm decides on its long-term expenditures and how it finances them, as well as how it manages its short-term operating activities. Emphasis is placed on the creation of shareholder value as a unifying principle for all of the business finance decisions.

Topics:

- Financial statement analysis
- Time value of money
- Bond valuation
- Share valuation
- Risk and return
- Cost of capital
- Project evaluation
- Project cash flow estimation
- Capital structure decision
- Dividend policy
- Working capital management
- Cash budgeting
