

FIN304 Decision Making for Financial Managers

Level: 3

Credit Units: 5 Credit Units

Language: ENGLISH

Presentation Pattern: EVERY SEMESTER

Synopsis:

FIN304 Decision Making for Financial Managers introduces important concepts in finance such as time value of money and risk, and it requires students to apply these concepts to make sound business finance decisions. These decisions include how a firm decides on its capital expenditures, sources of financing, and how it chooses from amongst alternatives as well as how it manages its short-term cash flows and hedge risk.

Topics:

- Time value of money
- Notion of risk and return
- Notion of cost of capital
- Project evaluation methods
- Project cash flow estimation
- Sources and methods of financing
- IPOs and rights offerings
- Venture capital and crowd funding
- Operating and financial leverage
- Working capital management
- Options in financial decisions
- Hedging using options

Textbooks:

: Fundamental of Corporate Finance 2ed Asian global Edition 2 MCGRAW
