

FIN799 Doctoral Dissertation

Level: 7

Credit Units: 80 Credit Units

Language: ENGLISH

Presentation Pattern: EVERY REGULAR SEMESTER

Synopsis:

DBA candidates are expected to complete a doctoral dissertation that reflects an original and independent scholarly contribution to the knowledge and practice in the fields of business and management. This will culminate in a thesis examination, which is followed by an oral defense. DBA candidates will be guided by dissertation supervisors in the completion of the chapters of their dissertations. The culmination of a doctoral candidate's final stage of graduate research study lies in the writing, submission and defense of the dissertation.

Topics:

- The topics would be aligned to the topic of the dissertation

Learning Outcome:

- Prepare a scientific and rigorous research proposal
- Critique and evaluate academic literatures and industry reports
- Analyse and discuss research results
- Conclude implications of results
- Plan and execute data collection
- Organise and interpret data with strong analytical skills
- Construct a detailed and comprehensive dissertation
