

PSS221 Urban Security and Resilience

Level: 2

Credit Units: 5 Credit Units

Language: ENGLISH

Presentation Pattern: EVERY JULY

Synopsis:

PSS221 Urban Security and Resilience provides an overview of the wide range of security challenges that threaten cities and urban areas. This course highlights threats ranging from natural disasters such as flooding and anthropogenic climate change to cybercrime and communicable diseases. The term ‘urban resilience’ describes the ability of cities to absorb and bounce back from shocks. For those working in the public safety and security sector, it is important to understand the various factors that contribute to the development of urban resilience. The elements that make up a safe city have a direct connection with the economic growth of that city. A safe city not only determines the quality of life of people living there, but also affects others such as investments and tourism. To effectively provide measures to protect the city, urban management requires careful planning and coordination between various levels of government, residents, businesses and visitors.

Topics:

- Urban security
- Personal safety
- Resiliency management framework
- Features of safe cities
- Measurements and assessments
- Digital security
- Health security
- Infrastructure security
- Environmental security
- Emerging security threats
- Mutually supportive security measures and systems
- Social connectedness

Learning Outcome:

- Describe the factors that determine urban security (B2)
- Analyse the resiliency management framework (B4)
- Identify the elements of a safe city (B2)
- Formulate plans to address security threats (B5)
- Implement security management framework (B3)
- Examine security challenges (B4)
- Appraise security management techniques (B4)

Assessment Strategies (Evening Class):

Components	Description	Weightage Allocation (%)
------------	-------------	--------------------------

Overall Continuous Assessment	PRE-COURSE QUIZ 1	5
	TUTOR-MARKED ASSIGNMENT 1	20
	TUTOR-MARKED ASSIGNMENT 2	20
	DISCUSSION BOARD 1	5
Overall Examinable Components	Written Exam	50
Total		100
