

## RES699 MEng Project

**Level:** 6

**Credit Units:** 40 Credit Units

**Language:** ENGLISH

**Presentation Pattern:** EVERY REGULAR SEMESTER

### Synopsis:

This research project requires the candidate to add to the body of knowledge in his/her chosen area of research, which demonstrates the breadth and depth at the masters level.

### Topics:

- NA

### Learning Outcome:

- Demonstrate a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, field of study or area of professional practice
- Demonstrate a comprehensive understanding of techniques applicable to their own research or advanced scholarship
- Demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline
- Demonstrate conceptual understanding that enables the student to evaluate critically current research and advanced scholarship in the discipline, to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses
- Able to deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate their conclusions clearly to specialist and non-specialist audiences
- Able to demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level
- Able to continue to advance their knowledge and understanding, and to develop new skills to a high level
- Have the qualities and transferable skills necessary for employment requiring the exercise of initiative and personal responsibility, decision-making in complex and unpredictable situations, and the independent learning ability required for continuing professional development
